Low, Medium, High, Ultra High Projection

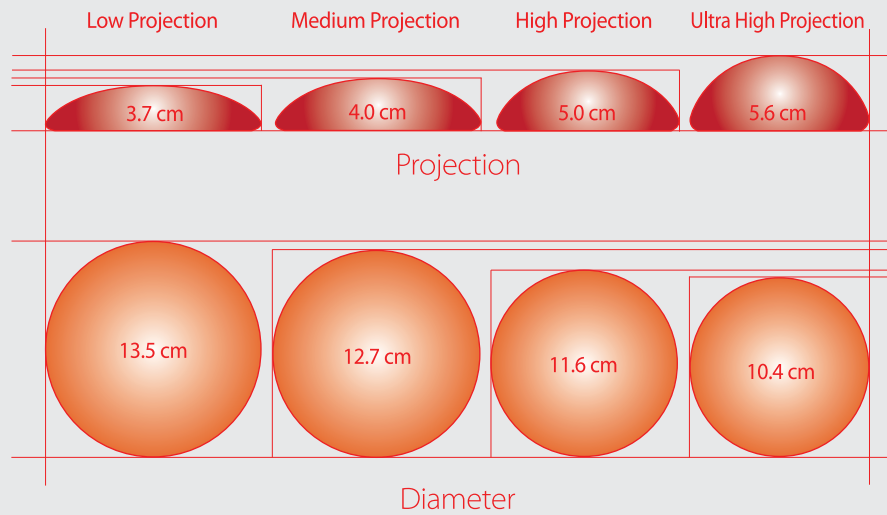

Breast & Gluteal Implant
BellaGel

Round
shape

Specification

Picture	Shape	Surface	Height	Projection	Volume	Cat. No.	
						Smooth	Texture
	Round	Smooth Texture	N/A	Low	125~550 cc	BRSZ-L cc	BRTZ-L cc
				Medium		BRSZ-M cc	BRTZ-M cc
				High		BRSZ-H cc	BRTZ-H cc
				Ultra High	120~560 cc	BRSZ-U cc	BRTZ-U cc

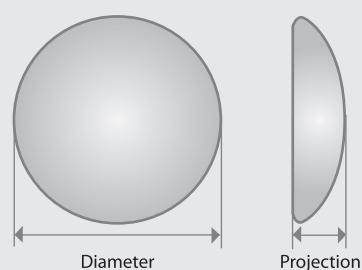

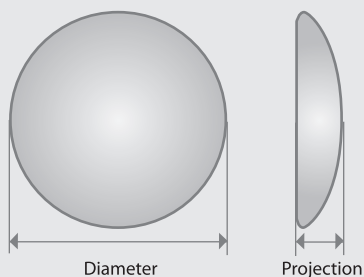

350 cc Round Smooth Dimensional Comparison

- *Most popular shape worldwide.*
- *Provides greater cleavage and ample in the aerial allocation of the breast.*
- *Thinner shell than textured surfaces results in softer touch.*
- *Textured surface induces tissue in-growth between the implant and the surrounding tissue.*
- *It reduces the movement of the implant, reducing the chance of capsular contracture.*
- *Advanced barrier layer technology also reduces gel bleeding and rupture rate.*
